

SHRAY BISHT

Data Analyst · AI Engineer · ML Specialist · Generative AI

Noida, India | +91-8130574974 | shray.bisht94@yahoo.com | LinkedIn: shray-bisht-645465aa | GitHub: shray5tech

PROFESSIONAL SUMMARY

Results-driven Data & AI professional with **7+ years of experience** delivering ML and analytics solutions at American Express, British Airways, and Electronic Arts. Built production ML systems improving VIBE score **78%→81%** and reducing Average Handle Time **370s→350s**. Deep expertise in **Python, SQL, LLMs, RAG, LangChain, and Generative AI**. Currently building AutoApply — an autonomous AI job agent for end-to-end personalized application automation.

TECHNICAL SKILLS

Languages & DBs	Python, SQL, SQLite, PostgreSQL, MySQL
ML & Deep Learning	XGBoost, Random Forest, Logistic Regression, Neural Networks, Scikit-learn, PyTorch, TensorFlow
Generative AI & NLP	Gemini API, OpenAI API, LangChain, RAG, ChromaDB, FAISS, Prompt Engineering, LLMs, Hugging Face
Data & Visualization	Pandas, NumPy, Matplotlib, Seaborn, Plotly, Power BI, Tableau, DAX, Excel
Engineering & DevOps	Flask, FastAPI, Streamlit, Selenium, Playwright, REST API, Git, GitHub, Docker, AWS, Azure
Analytics & Methods	A/B Testing, Hypothesis Testing, EDA, Feature Engineering, Statistical Modeling, NLP, Sentiment Analysis

PROFESSIONAL EXPERIENCE

Customer Analytics Analyst

Jun 2021 – Sep 2025 · 4 yrs

American Express

- Applied **Logistic Regression** on ML-labeled call data, engineering features from raw metrics (handle time, tonality, dead air) — VIBE score **78%→81%**, AHT **370s→350s**
- Designed and executed **A/B experiments** validating VIBE interventions — confirmed statistical significance of sentiment and efficiency gains vs. control population
- Analyzed customer complaint datasets using **SQL and Python**, surfacing actionable insights to 150+ stakeholders and senior leadership
- Built **Power BI dashboards** with DAX; automated Python reporting scripts reducing manual effort across business units
- Performed **sentiment analysis, NLP complaint mining, and word clouds** contributing to 6% CSAT increase

Consultant – Ticketing & Operations

Sep 2018 – Jun 2021 · 3 yrs

British Airways

- Built **SQL queries and Excel dashboards** to support commercial decision-making and operational performance tracking
- Ensured data security compliance through QA evaluations across international operations (US/UK shifts)

Technical Support Analyst

Feb 2017 – Jun 2018 · 1 yr

Electronic Arts (EA)

- Analyzed support data to identify resolution patterns, improving average resolution time
- Conducted game testing contributing to product quality and CSAT improvements

KEY PROJECTS

AutoApply — Autonomous AI Job Application Agent

Python · Gemini API · LangChain · Playwright · SQLite · Streamlit · APScheduler

- Multi-agent system: scrapes jobs, scores JD fit (0–100), tailors resume + cover letter per application, auto-submits headlessly
- ATS-optimized keyword matching; SQLite audit DB with screenshots; targets **50–100 applications/day** on LinkedIn & Naukri

SupportAI — RAG Customer Support Chatbot

Gemini 2.5 Flash · LangChain · ChromaDB · Sentence Transformers · Streamlit

- Zero-hallucination RAG chatbot with multi-turn memory (k=5), persistent vector DB, ConversationalRetrievalChain architecture

Telco Churn Prediction — End-to-End ML Pipeline

XGBoost · Scikit-learn · Flask · Gemini API · Pandas

- **84.7% ROC-AUC** with hyperparameter tuning; \$259K business impact analysis; Flask API with Gemini AI integration

EDUCATION

M.Sc. Artificial Intelligence & Machine Learning	Woolf University via Scaler · 2024
Bachelor of Commerce (B.Com)	Jodhpur National University · 2015

CERTIFICATIONS

- Project Analyst Certification — American Express (June 2024)
- Python Libraries: Pandas, NumPy, Matplotlib — Scaler (June 2024)
- EDA Fundamentals — Scaler (July 2024)
- SQL Fundamentals — Scaler (May 2024)
